FROM: Steve Stodola, QA ChemistSS

TO: Frank Battaglia, RPM

The Office of Quality Assurance has reviewed the Environmental Testing Laboratory QA Project Plan dated March 17, 1994. This plan covers the work that Ciba-Geigy's internal laboratory will be doing to support the river modeling project for their facility in Cranston, RI. On March 2, 1994, after an initial review, the QA Office submitted a list of seventeen questions and comments concerning their plan. On March 17, 1994 Ciba-Geigy responded to our seventeen points. All of their responses are acceptable to the QA Office. They incorporated all our suggestions and answered all our questions. Therefore, the QA Office approves Ciba-Geigy's project plan for the laboratory work on the river modeling project.

If you have any questions, give me a call at 617-860-4634.
